

Ultrapure Water E-Cell* Electrodeionization

Industry-leading performance and product reliability from
time-tested manufacturing practices

Power & Green Hydrogen
Microelectronics
Semiconductor
Photovoltaic
Pharmaceutical
Biotechnology
Laboratory
Steel
Chemical/Petrochemical
Pulp & Paper

CSA/CE/UKCA/EAC/FDA/IFANCA certified
USP/EP purified water

High Performance & Reliability

Under equivalent conditions, better product water quality:
higher silica removal and water resistivity*

*Performance guarantee for a given application can be modeled using Winflows

Less Energy

Able to achieve the same demineralization
performance with lower power consumption
up to 25% energy savings
