

Membrane Treatment Chemicals

Protect your membranes from scale, bacterial growth & fouling

Antiscalants & Antifoulants

Eliminate scale and reduce fouling in your membrane systems with our **Hypersperse*** antiscalants and antifoulants.

Biological Control Chemicals

Reduce bacterial growth & slime with our **BioMate*** advanced non-oxidizing biocides.

Pretreatment Chemicals

Treatment for suspended solids, organics and oil removal, sludge dewatering and lime softening with our **KlarAid** coagulants, and **Novus** and **PolyFloc** flocculants.

Odor Control

Control hydrogen sulfide and nuisance odors with our **ProSweet** odor control solutions.

Metals Removal

Remove heavy metals to meet effluent guidelines and maintain environmental compliance with our **MetClear** metal removal solutions.
